

Schedule

Date: 2 November

1. Meet at TQ at 9:00
2. Prepare some things before leaving
3. Around 12:00 leaving – 20 min drive to Infoland
4. Setting everything up at Infoland – maybe take a look around
5. 13:00 - 16:00 interviews + testing

Introduction

- Who we are
- What we are doing
- What we are going to do at Infoland

Interviews Flyers

Establish who the people that we interview are. What's their job?

We made these flyers. They are concepts that use AR to improve the workflow of certain tasks.

They explain the concepts/use cases we came up with. *Show flyers*

- Let tester read flyer
- Observe tester, try to avoid answering question immediately, let tester figure the concept out themselves
- After tester is done reading flyer, ask questions:
 - o What do you think?
 - o Tips and tips of the concept
 - o How do you think AR could help you?

Demo

Infoland employees get explained a task e.g. "Can you follow the protocol for preparing surgery?"

Observe their attempt at completing this task.

Afterwards, ask what they thought of the experience.

Was it useful?

Was it a meaningful addition?

Where there inconveniences you ran into?
