

User stories

- As a user I want to be able to place vegetation and other garden objects in a specific area in my garden so that designing/redesigning my garden is easier
- As a user I want to have instructions on how to place the garden objects so that I understand how it's done
- As a user I want to create layers/groups for multiple garden objects so that I can organize my design more easily
- As a user I want to toggle the visibility of garden objects and layers/groups so that I can see different combinations of garden objects
- As a user I want to preview how garden objects look like in a garden before I pick them so that I can see in what way I can use the garden objects to save time.
- As a user I want to know what the advantages and disadvantages of specific garden objects are so that I know whether the garden objects are a good choice for my garden.
